

Quality Policy Statement for

Treleigh Holdings Ltd

Overall and final responsibility for Quality is that of.

James Gazzard

Group Managing Director

Treleigh Holdings Ltd consists of two companies: WES Engineering Solutions Ltd (WES) and BC Car Parts Ltd (BCC). The companies supply components to a range of industry sectors including automotive, aerospace, oil and gas, medical, process control, subsea and general engineering industries through WES, as well as supplying products to the classic car market via BCC. All manufacturing operations are carried out by WES.

The companies operate a common quality management system (QMS) in compliance with EN/ISO 9001:2015 including approval for product design. The QMS targets customer satisfaction and documents our methods for achieving this.

The QMS includes a commitment to achieving continual improvement.

The company's quality objectives focus on customer satisfaction, achieved by ensuring contracts are completed to the agreed requirements for specification, cost, and delivery integrity. Additional objectives include those of financial performance, growth, safety of employees and visitors, training and environmental impact. The QMS provides a framework for establishing, monitoring and reviewing company quality objectives.

The Quality policy and QMS are available to all staff and stakeholders as required.

The QMS objectives and performance in meeting those objectives are periodically reviewed by the company's senior management team along with the continuous improvement program. The results of these reviews are communicated throughout the whole organisation.

The directors and employees of the company are committed to compliance with, use of, and improvement to the QMS.
